

Did you know?

- 1 Galileo has a higher fare accuracy than all other GDS's
- 2 Most of Galileo's functions require a single command which means the host hits will be lower per booking
- 3 It has the best documented API and webservice toolkit
- 4 Galileo has the highest access levels if low fare search is used for Indian Airlines and Air India
- 5 Galileo has the lowest seat sell failures due to Auto plating
- 6 Galileo has the latest technologies to minimize request/responses time. Highly optimized requests to retrieve data from Galileo Web Services. Multi submit option to send more than 25 XML requests in one go

*Based on the in-depth GDS study conducted by a leading OTA
